No. 32/3-IDSP-2020-4358-79

Dated: 23rd July 2020

Subject: Guidelines for Gated Residential Complexes Desirous of Setting Up Small Covid Care Facility by Resident Welfare Associations / Residential Societies / Non-Governmental Organizations (NGOs)

With reference to the subject cited above,

2. As the situation of COVID 19 is evolving in Haryana, the numbers of Covid cases are increasing day-by-day.
3. Since Haryana State is doing many efforts to contain the spread of COVID-19 in Haryana Still the state needs to be more vigil in coming days.
4. However, it is observed that the community living in gated complexes may like to create small Covid Care Facility within the residential complex managed either by the RWAs / Residential Societies or in collaboration with an NGO. This may be more acceptable to the residents and will help reduce the burden on existing facilities for managing suspect / pre-symptomatic / asymptomatic / very mild cases of COVID-19
5. In this regards, **Guidelines for Gated Residential Complexes Desirous of Setting Up Small Covid Care Facility by Resident Welfare Associations / Residential Societies / Non-Governmental Organizations (NGOs) has been issued by Ministry of Health & Family Welfare** which is being enclosed as Annexure- A for establishing a small Covid Care Facility, a community-based isolation facility, with their own resources.
6. Hence you all are directed to ensure the implementation of the same in the State.

**Director General Health Services,
Haryana, Panchkula.**
